**Docket No. 02-6**  
**Waiver for Deadline for Form 486**

Dear FCC Representative,

I am writing on behalf of Applicant Veritas Academy, BEN: 17012502 to request a waiver for the deadline of submitting our Form 486. We were notified that the deadline was October 28, 2018 via email, but the email went to junk mail and we did not see it. As new applicants, we were not familiar with the process. We had received a Funding Commitment Decision Letter (FCC Form 471: 181015686) for the funding year 2018-2019 but had not heard from our service provider. We attempted to contact our service provider as well as the contact person from USAC for several months but we were unable to reach them. We finally heard from the service provider on March 5, 2019 and that is when we learned that the deadline had passed. We have not utilized any services funded for this year. Now that the service provider is ready to proceed, and we have all the information we need, we have submitted the Form 486 and we are asking that you waive the deadline so we can proceed with the services funded for this year. Keep in mind that our school is in the rural areas where services are generally limited and we would like to be able to utilize these services so that our students can learn like their peers in larger communities that have access to good internet service.

Thank you for your kind consideration!

Sincerely,

Susie Brooks
